Release of PROADAS 25.0 database
software update

N. 13 30/09/2025

The **new software version 25.0 for iONE CRUISER diagnosis device and for PROADAS 2.0 software** is available for download.

Starting from release 25, it is possible to **unlock the safety control units in MERCEDES-BENZ-branded vehicles** via the SGM service **available** with the iONE CRUISER diagnostic device.

To download the update, it is necessary to have an internet connection and follow the instructions provided by the software.

Release of PROADAS 25.0 database
software update

N. 13 30/09/2025

The **new PROADAS 25.0 data coverage** can be consulted via the new **PROADAS COVERAGE** application on PROADAS website or by pressing the specific button in the PROADAS software:

PROADAS COVERAGE LINK

All positioning procedures marked with an asterisk* require the use of **IONE REMOTE** device in order to perform the sensor calibration.
